## SUMMARY

---

I am a fourth-year Ph.D. student at Fudan University advised by [Prof. Junping Zhang](#) and [Dr. Hongming Shan](#). Previously, I got my bachelor's degree from Sichuan University in 2019. My main research interests include unsupervised/semi-supervised learning, generative model and biometrics, especially face-related applications. I am highly self-motivated, of great passion/coding skills, and able to work independently.

I am expected to graduate in June 2024. I am seeking a postdoctoral position, please do not hesitate to let me know of any potential openings or relevant information.
